News from Mike

Homeowners at L.B.C.C.!

I will start lowering the lake on October 25th so you will be able to start cleaning up your shore line. Pontoon owners be alert—you may have to remove your pontoons from the lake earlier this year. If you plan on having me take out your pontoon, make an appointment now by calling the maintenance shop at 342-4341 or the club office at 342-4431. The deadline for pontoon removal is October 29th. After that date, additional fees will be assessed. I would like to thank all of the ladies for maintaining all of the flower beds this season. My email address is lakebrackenc@yaho.com if you need to get a hold of me or have any questions. Thank you for all the positive feedback I have received.

Also, Large Trash Day is October 9th.

Mike

A big Thank You to all the Firemen that repaired the steps in the park. They look great! It was really needed and very much appreciated. Thanks guys!

Craig's News

Still a lot of exciting events happening in September and October, so please watch your calendar for dining specials and other things that you don't want to miss. I want to thank everyone for their efforts in making dining reservations. As you have seen on Friday nights, things get pretty busy around here.

So, please be understanding if there is a wait, or we are not able to seat you immediately, if you do come over without reservations. We will do everything that we can to get you a

table as soon as we can.

Thanks for your continued support in the dining room. If you have any ideas or suggestions for food specials please let Jeff or I know.

Thanks,
Craig

Save Our Shores Thanks to the boaters who have lowered their speed to reduce their wake and help save our shores. One problem area we are seeing is the operation of member's boats by none members. Please remember a member must be on the boat when it is in operation.

Leaves: With fall approaching please do not deposit leaves or other yard waste in to the lake. This reduces the oxygen level in the lake, which is detrimental for the fish and plants. The green slime we see is in part due to the reduced oxygen levels.

Lake Lowering: The Lake will be lowered this year to allow homeowners to maintain their shoreline. The lowering will begin **OCTOBER 25th** and the plan is to maintain the lower level for a minimum of two week. Please plan any projects accordingly. Also please keep in mind the lower water level may affect boat removal. Any boats to be removed by the staff must be done by **October 29**.
